DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-36 and 41-43, drawn to compositions comprising a sulphamate compound and an apoptosis inducer and a method of preventing or inhibiting growth of tumor cells using the composition, classified in class 530, subclass 351, for example.
- II. Claims 37-40, drawn to a method of upregulating receptor function of a TRAIL receptor comprising contacting a cell comprising the TRAIL receptor with a sulphamate compound, classified in class 514, subclass 169.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the method of treating with a composition comprising a sulphamate compound and an apoptosis inducer has a different effect from the method of treatment with just the sulphamate compound.

Because these inventions are distinct for the reasons given above, have acquired a separate status in the art as shown by their different classification, and the search required for each group is not required for the other groups because each group requires a different non-

patent literature search due to each group comprising different products and/or method steps, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
